

# Weekly Meet – 14/02/2024

## MoM

### Attendees:

1. Ritvik
2. Keshav
3. Paridhi Jain
4. Hari Chandana
5. Navdha Bansal
6. Mr. Raj

- We presented our ppt.
- We need to research how to package our app to make it deployable which supports Android 9 and above and deliver the package by Saturday (17 – 02- 2024).
- Also, a list of videos and their data is given along with scripts to extract and publish them into the database.
- We must change the script and populate the database using the given list.
- To do this, we need a service account. So, we need to research about service accounts.
- Progress is slow, so we need to pick up these two weeks.
- Finally, Goals for the next two weeks:
  - Package the app for deployment.
  - Make Homepage – from IRCTC design.
  - UI Improvements for LP page – like showing thumbnails, and tags, making them clickable, etc.
  - Make Videos playable.
  - Populate the backend.
  - Develop a search API.
  - Develop a basic recommendation system.
