

Weekly Meet – 01/03/2024

MoM

Attendees:

1. Ritvik
2. Keshav
3. Paridhi Jain
4. Hari Chandana
5. Navdha Bansal
6. Mr. Raj
7. Mr. Ramachandran

- We presented our ppt.
- We then presented our demo.
- We presented our plan for the next week to develop the User On-Boarding module.
- Mr. Raj Sir asked us to reprioritize.
- We have a release (R1) scheduled on March 15. (i.e. in two weeks)

- Now the goals for the next two weeks are (in order of importance):
 - Coin System – The user must get 10 LearnCoins by tapping/start watching a video.
 - Coin balance must always be visible to the user.
 - E-Commerce System – a page with the user's balance along with a list of items must be shown.
 - The player must show no error before tapping on a video.
 - The Home Page must look like IRCTC.
 - Change the name of the app.
 - UI of Search is changed – Category is moved under the image and Likes/Views etc are shown below the title, search results must be visible like cards.

- Now, the features which can be done after the R1:
 - Purchase system in the E-Commerce App is developed.
 - The player must be moved to a new screen.
 - Login, Signup, and Profile pages are implemented.
 - Pagination can be done from the backend.
 - A recommendation engine is developed.

- The next meeting is scheduled on next Friday (i.e. 8th March) from 5.30pm.
