

Weekly Meet – 08/03/2024

MoM

Attendees:

1. Ritvik
2. Keshav
3. Paridhi Jain
4. Hari Chandana
5. Navdha Bansal
6. Mr. Raj
7. Mr. Ramachandran

- We presented our ppt.
- We then presented our demo.
- We presented our plan for the next week.

- Mr. Ram Sir asked some questions regarding future progress and User Journey through the app.

- Now the goals for the next week are (in order of importance):
 - o Video player implementation in a new screen.
 - o Addition of two users' data and switching between users.
 - o Sources for the product should be displayed. (How it must be displayed will be informed later)
 - o Fixing the previous user interface (making it compatible for all types of screens) issues.
 - o Displaying coins should be more prominent. While coins are updating show something like changing colors.
 - o Change the name of the app.

- Now, the features which can be done after the R1:
 - o User profiles should use LLMs. For recommendation purposes.
 - o Login, Signup, and Profile pages are implemented.
 - o Pagination can be done from the backend.
 - o A recommendation engine is developed.
 - o Discussion about implementation of different landing pages.

- The next meeting is scheduled on next Wednesday (i.e. 13th March) from 5.00pm.
